ARE Schematic Design

This division is only graphical vignettes and its tests simulate the problem-solving process to evaluate a candidate's design ability. In this session you will discover insights that test your knowledge, skills and abilities providing you with a higher level of self-confidence beneficial to pass the exam.

Learning Objectives:

- Review of the Schematic Design division and exam format
- Familiarize yourself with the emphasis of the exam and its grading criteria
- Review solutions of the Interior Layout and Building Layout vignettes
- Discuss tips in using the software and tips for problem-solving the vignettes

Instructors:

Bob Rich, AIA

A359i

Paul Shirley, Assoc. AIA
