AIA Contract Documents

On May 31, 2009 many AIA Contract Documents will re-tire. The list is quite extensive and we are pointing you to the AIA Contract Documents Expiration Primer at <http://www.aia.org/aiaucmp/groups/aia/documents/pdf/aiab079884.pdf>.

If you are using AIA Contract Documents software, you will not be able to convert a draft to a final document, or otherwise generate a final document after May 31, 2009. This applies only to those documents identified as being retired on May 31, 2009. Due to the furlough there will be no technical support next week.

Distributors will no longer stock paper copies of the retired documents. However, AIA Cincinnati is able to special order 1997 documents for State of Kentucky projects. Please contact the office for ordering details.
