

DESIGN GROUP, INC.

Career Opportunity – Graduate Architect/Intern

Casler Design Group is an established and stable design firm specializing in commercial and corporate architecture and interior design. The practice provides a full spectrum of architectural and interior design services, and is focused on the design of corporate, medical, retail, and industrial facilities. Casler Design offers exceptional benefits and flexible work arrangements in a creative and collaborative atmosphere. The position advertised has significant opportunity for personal growth and development in the profession. We are recognized for providing excellent service and solutions tailored to our client's needs.

Required Skills and Qualifications:

- Architectural or technical school graduate with 2 - 5 years of experience in commercial architecture
- Preparation of building design and construction documents
- Coordination of construction documents with engineering disciplines
- Basic knowledge and understanding of building code requirements
- Knowledge of sustainable design principles
- Strong communication and organizational skills
- Technology skills - high level of proficiency in AutoCad, Revit, SketchUp, computer graphics and other office applications

Responsibilities and duties include:

- Participate in planning and design activities, including 3D renderings
- Assist Architects and Designers with the preparation of construction documents
- Develop understanding of building code and accessibility (ADA) requirements
- Develop understanding of BOMA Standards and perform building area calculations
- Field verification surveys to produce drawings of existing site conditions

If you are looking for a position that affords a desirable location, pleasant office environment, and the opportunity to learn and grow, come be a part of the **Casler Design Group** team! Our experienced staff is ready to help you develop your career!
