The SSHC is an educational event for Healthcare providers and industry partners. ACHE (American College of Healthcare Executives) joins the Symposium as an Education Partner.

A TRADE SHOW with exhibitors focusing on the Healthcare industry runs concurrent with the Symposium.

WHO SHOULD ATTEND: Healthcare administrators, medical practitioners, A/E/C professionals, nursing/clinical staff, medical students/educators, environmental health and safety personnel and facility managers.

Hospitals Advancing Resilience: Protecting Lives and Margins
(Pending AIA LUs, GBCI CEs)

The Keynote session will focus on the impact of resilient design strategies on the buildings and communities they serve.

Spaulding Rehabilitation Hospital in Boston, MA will serve as a case study and catalyst for conversation outlining specific resilient design strategies presented in detail. As a bellwether project for the advancement of resiliency, lessons learned from Spaulding will be considered as the healthcare community continually strives to design and build a more responsive future in the face of climate change. Moving beyond Spaulding, resilient development strategies at Partners HealthCare and at other healthcare systems will be introduced.
